Hello All,

Spring is definitely upon us; with snow in the forecast as I write this letter in mid-April. Utah has certainly had a stellar year for snow this year, breaking many records for totals in many of our ski resorts. The unfortunate side of the great snow totals is that we have begun to see flooding already in many parts of northern Utah, and we’re just getting started with the Spring thaw.

The last time we saw such a heavy winter was back in 1982-83. Even though I was just a child then, I still remember an avalanche behind Vivian Park in Provo Canyon that buried my grandparent’s cabin. The Provo River was flooding over the highway and people were kayaking down State Street in Salt Lake City during the Spring floods. Luckily, we are far better prepared this time with a better infrastructure in place and many reservoirs that need to be filled. But there is still flood danger for many. So I urge everyone to not only look ahead, but look out for your community. Volunteer to help sandbag if needed. We all work hard, but the act of service to help someone preserve their home is priceless and will not be forgotten by those we help.
Also, please remember the importance of acting safely around swift waters. It is amazing to watch large amounts of water flow, but the sheer force of water can often be overlooked and forgotten about when we’re out enjoying the warm weather and trying to get pictures or videos of the uncommon high waters.

Don’t forget to mark your calendars for the annual Moab PED & Summer Retreat coming up June 8-10. There will be a golf game on Thursday, June 7th in Monticello, continuing education classes on Friday followed by the BBQ. Saturday we will go on the ATV ride. Everyone is welcome. We always have a fantastic time, and we’d love to see you there!

Best regards,

Casey Curtis, ccurtis@hydroresources.com
